The New Mountaineering
Ortles Collection

Mountains are spaces of possibility.
Every step brings new choices,
every peak a moment of inspiration.

Every ascent begins with questions.
Questions about who we want to be, the places we want to reach - the spaces where we can express ourselves, our personality, our attitude. Where is our place, our space?

In its new Ortles Mountaineering collection for Fall & Winter collection 2026, Salewa confronts us with these questions. Who do we want to be - on the mountain, on our adventure, when we push ourselves to our limits?

Each summit lets us resonate - with the peaks around us, with rock, ice, thin air, snow, and earth. And with those mountaineers like us who are also up here searching for something. The mountain is a space of possibility. It allows us to express who we really are - as curious beings, seekers of silence, explorers of vertical worlds. Every step a discovery, every peak a moment of inspiration.

The new Salewa Ortles Mountaineering Collection was designed and developed to embrace and encompass all these different ways of experiencing the mountains, reflecting the diverse personalities and motivations behind them. Each product is built to be - technically - the very best. Engineered in the Dolomites, yet with space for personal interpretations of what it means to enter the mountains and the boundless opportunities they offer.

Enter_Your Mountain Space.

Mountaineering has always been at the core of Salewa's DNA, a discipline that defines the brand's heritage and continues to shape its identity. Yet the activity itself is evolving. Seasons are no longer as they once were; weather patterns are shorter, less predictable, and more extreme. At the same time, a new generation of mountain enthusiasts is discovering the appeal of alpinism - looking for authenticity, simplicity, and the freedom to move with purpose. Modern mountaineers expect more: more versatility, more safety, more refined aesthetics. They seek products that reflect their attitude: innovative, functional, and built for the unexpected.

The new Salewa Ortles Mountaineering Collection was created to meet these changing needs. Designed for the highest performance, yet with a light and intuitive approach, each piece offers exactly what's required, no more, no less. Every product is crafted for durability and reliability without compromising on comfort. Longevity is a key driver in Salewa's sustainability philosophy, which places material selection and product lifespan at its core. The result: a collection that supports an authentic mountain experience - light, highly functional, yet based on simplicity.

SELECTED HIGHLIGHT PRODUCTS OF THE SALEWA
FALL & WINTER 2026 ORTLES MOUNTAINEERING COLLECTION:

Ortles PTX Extreme 3L W/M

The Ortles PTX Extreme 3L is a hard-wearing Powertex® Extreme shell built to provide the most rugged storm protection for mountaineering and ski touring in the harshest conditions.

Its hydrophobic membrane combines outstanding breathability (30,000 g/m²/24h) with a robust 25,000 mm waterproof spec.

With an AquaGuard® front zip, helmet-compatible hood, ski pass pocket and underarm ventilation to round off the technical spec.

RRP: 480,00 euros

Ortles Heavy RDS Down Pro W/M

Designed for mountaineering and climbing in alpine environments and sub-zero temperatures: this ultra-warm technical down jacket for alpine mountaineering is designed with a bodymapped double-chamber construction und treated with a PFAS-free DWR (durable water repellent) finish. The 'Heavy' packs high-quality 90/10 750 fill power down into an innovative offset stitched double-chamber construction to improve thermal performance and eliminate cold spots. With Tirolwool® Air inserts, a 2-way front zip for belaying, internal draft tubes, and a fully helmet compatible hood.

RRP: 550,00 euros

Ortles Guide 2 38/45 L

Engineered to explore technical terrain: The new Ortles Guide 2 is available in a 38 or 45L version and either more compact or perfect for multi-day mountaineering and ski touring missions.

Both versions are built of abrasion-resistant Robic® nylon with UHMWPE ripstop grid in a sleek design. Its Dry Back Contact system and low-profile Split Shoulder Straps promote breathability, stability and maximum freedom of movement. With a strip-down removable hipbelt and lid. It has with ski fixation, an avalanche gear pocket and tool attachment to cover all mountain missions.

RRP: 200,00 / 220,00 euros

NXT Pro 38L

The new ultralight pack NXT from Salewa for alpine environments is the perfect companion for mountaineering, alpine climbing and ski touring. The NXT Pro 38L is made of Challenge ULTRA™ - the ultralight UHMWPE pack fabric whose fibres have a tensile strength 15x stronger than steel. Its Dry Back system ensures a close-contact carry and unrestricted mobility. The roll-top alpine pack holds a full feature set for technical mountaineering, including dual tool and ski-fix attachment, rope fixation and detachable hip belt padding.

RRP: 300,00 euros

Ortles 2 Mid GTX M/W

Built to seek, climb and explore in technical terrain. The Ortles 2 Mid GTX is a lightweight, dynamic boot with a precision-engineered TriWeave™ upper, waterproof GORE-TEX® protection and crampon-compatibility. Its wrapping fit can be further customized using the CFF Winter footbed. The Vibram® multi-zone outsole with ClawLug™ geometry combines high grip and traction with adaptable braking performance.

RRP: 330,00 euros

MTN Trainer Tech Mid GTX M/W

Designed for all-terrain mountain exploration - one boot for every mountain. The new Salewa MTN Trainer 3 Tech Mid GTX features a robust leather and Cordura® upper with a GORE-TEX® membrane and full protective rand. Its moulded insole ensures a supportive, anatomical fit and superior hiking comfort. With a reliable, auto-crampon compatible Vibram® WTC 3 outsole. A worthy successor to the Salewa Crow.

RRP: 280,00 euros

ABOUT SALEWA

Salewa is passionate about mountain sports – ambitious alpinism and the mountain experience. Founded in Munich in 1935, the management-led, family-owned company is now located in the Dolomites of South Tyrol. Based at its headquarters in Bolzano, the company develops technical products that combine traditional materials and progressive design. Salewa is committed to high environmental and social standards and rooted in regional identity, quality and integrity. Consistently striving to find new ways to build better, game-changing equipment, the brand has a unique understanding of mountain sports. Progressive mountaineering is about more than just performance, it encompasses an appreciation of the natural world and individual and shared experiences in the mountains. Salewa is a leading international manufacturer of mountain sports equipment with innovative products in four product categories: Apparel, Footwear, Equipment and Technical Hardware.
